

“

*May all living beings unite in harmony  
so that the corona virus  
can leave mankind in peace.  
This is the best way to solve this crisis.*

”

Sifu Wei Ling Yi

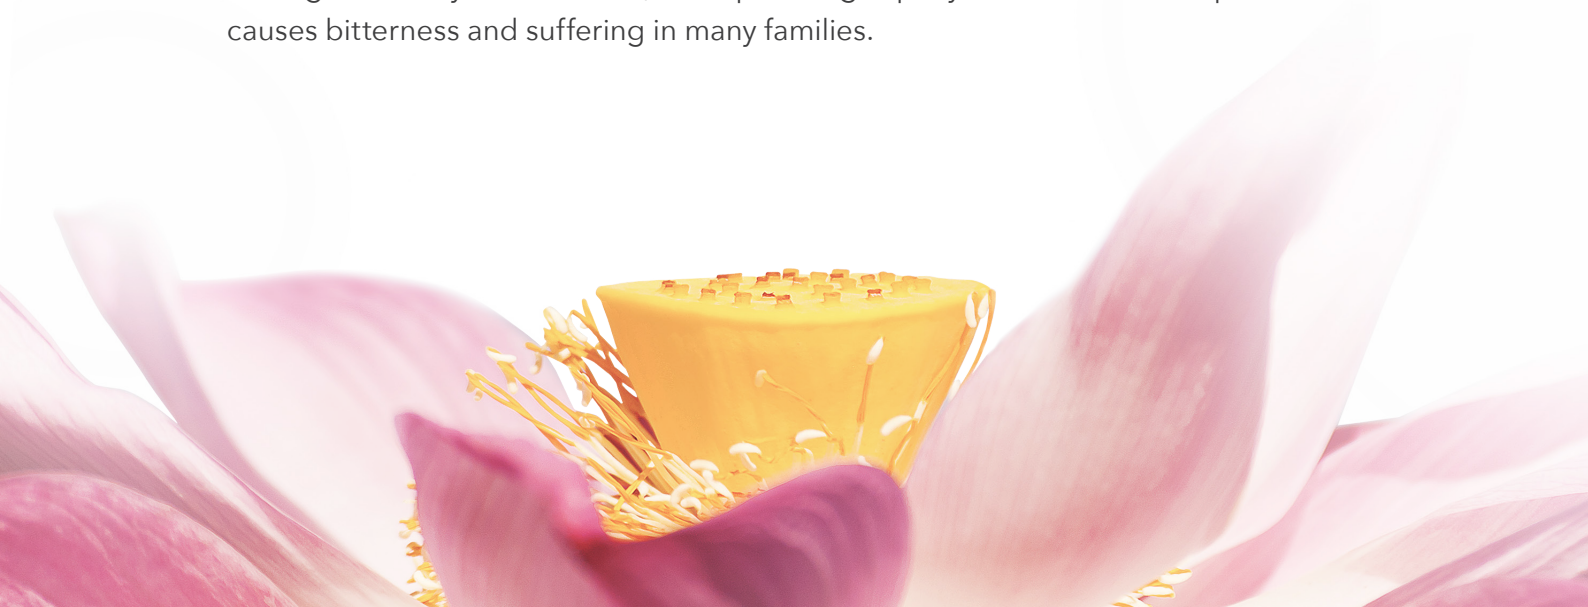

### **Dear Lotus Friends,**

the origin of all life is kind in its essence, filled with great mercy, great compassion and great love. Unfortunately, mankind no longer follows the natural laws of cosmos and nature, even though they are the fundamental laws of everything living.

Although Mother Earth is our home, we have shown little respect, appreciation and love towards her for many decades. We have lost sight and gratitude for her beauty and her preciousness, for our planet, which unconditionally gives us everything we need for our life, our development, our BEING and our happiness.

### **Obsessed by Greed**

Mankind is obsessed with greed and relentlessly exploits the earth down to its very depths. This greed is the reason why the balance between heaven and earth and the harmony and peace between all living beings has been lost. The corona virus has lost its original mercy and balance, it is spreading rapidly across the entire planet and causes bitterness and suffering in many families.

## **We are One World - We are One**

We all have a common origin and root and are one big family. Actually there is no difference between me and you, between you and us, between yours and mine. Our destinies and our lives are all connected, we are **ONE**, we are **ONE WORLD**. The corona virus also belongs to our family, basically it is our friend, our relative.

## **So that Heaven touches the Earth**

It is about time that we realize that our compassion and mercifulness, our love and kindness and our true tolerance can resolve all natural disasters, accidents, wars and sufferings on earth.

*Let us spread our compassion out of ONE HEART,  
which is deeply connected with the universal unity, the YI.*

*Let us cultivate the great 'Fa' – the cosmic laws –  
to unite heaven with earth.*

*Let us recite together the protective mantra 'Ma Ya Hai'  
and develop our peaceful, harmonious heart.*

*Let us give Lotuses to one another  
so that heaven touches the earth.*

In the end, I wish all of us that peace will return to this world and that all countries are prosperous, so that people can live happily, and that beauty can unfold on earth again.
